

Terms of Use Document (ToU)

System Documentation | IRVision AI

1. Acceptance of Terms

By accessing and using the IRVision AI platform, you agree to comply with and be bound by these Terms of Use. If you do not agree, please do not use the services. This platform is dedicated to remote sensing analysis, scientific research, and satellite image colorization & enhancement validation checks.

2. User Conduct & Responsibilities

- Users must represent an authorized scientific or academic entity or register using valid personal details.
- Users agree not to upload corrupted, maliciously structured, or non-image format payloads.
- Reverse engineering, scraping, or launching denial-of-service (DoS) attacks on the processing server is strictly prohibited.

3. Intellectual Property Rights

All code, algorithms, neural network design, frontend styles, layouts, and documentation belong to IRVision AI. Satellite input data uploaded by scientists remains their intellectual property, while the enhanced output visualizations remain under open-access scientific publication terms.

4. Disclaimer of Warranties

IRVision AI services are provided 'as is' without warranties of any kind, either express or implied, including the accuracy of pseudo-color meteorological structures.
